LOCAL MISCELLANY.

The Society for the Prevention of Crime has reorganized, in accordance with its new certificate of Incorporation, and has elected these officers: President the Rev. Dr. Howard Crosby; vice-presidents, Peter Cooper and ex-Mayor W. H. Wickham; treasurer, Benjamin Tatham. D. J. Wnitney was reflected legal agent of the society. The finances of the society are in a favorable condition. The dispute between the society and the Excise Commissioners about the pardon of Thomas P. Doyle, sentenced to imprisonment and fine for violation of the Excise law, and pardoned by the Governor partly on the recommenda-tion of Commissioner Merkle, still continues. by the Governor partly on the recommendation of Commissioner Merkle, still continues. It appears that when an application for pardon was sent to Governor Robinson, among the papers amporting the petition was an official certificate from the Board of Excise, said to have been sixued by Commissioner Merkle, stating that Doyle had applied for a fleense in March last, and had then paid a fee of \$75. The Governor, taking this and other representations into consideration, granted a pardon. His action gave rise to criticism by the Rev. S. I. Prime, a member of the society, and a correspondence between the Governor and this gentleman followed. D. J. Whitney, the agent of the society, and the Rev. Dr. Prime in his letter, claim that no record exists of any application for a license or of payment of fany money by Doyle in March. The records show that a fee of \$75 was paid by Doyle July 3, about six weeks after the violation of the law for which he was sentenced. Mr. Whitney says that either Doyle paid the fee twice, and that the first fee was embezzied, or that a misrepresentation was made to the Governor.

The Governor, in a letter to the Rev. S. I. Prime, dated Occober 30, said that if the Commissioner under his seal of office had certified faisely he deserved removal and indictment. Mr. Whitney said that he could not now tell whether the society would move for the indictment of Commissioner Merkle or not, but they had all the necessary evidence to prove their statement, and they would not has be defeated by the liquor dealers and Excise Board. Mr. Whitney added that Mr. Childs, the clerk of the Board, who signed the statement above menioned, has since been dismissed, and that Edward Merkle, who reported favorably upon Doyle's piplication, is a relative of Commissioner Merkle.

Commissioner Merkle stoutty defends his action, and in turn assails Mr. Whitney for overcearance and cannity. "My letter to the Governor upon the subject of Doyle's pardon," no said, "was based upon what appeared on the books and shaped my lette

A NEW CHURCH IN HOBOKEN. DEDICATION OF THE ROMAN CATHOLIC CHURCH OF OUR LADY OF GRACE.

The new Roman Catholic Church of Our Lady of Grace, at Fourth and Willow-sts., Hoboken, was formally opened and dedicated yesterday morning. Every seat in the church was filled, and the five main aisles were crowded with people. Bright flowers in handsome vases and hundreds of lights adorned the altar. About 11 o'clock a long procession led by boys bearing banners and young girls dressed in white marched from the sacristy to the churchyard. They were followed by a score of acolytes and about flity priests from the dioceses of New-York and flity priests from the dioceses of New York and Newark, and Bishop Carrigan, of Newark, who performed the ceremony. The procession moved around the outside of the church, the Bishop sprinkleng the walls with hely water. Prayers were read, psalms were chanted, and the "Misserer" was sung. Inside the unliding the Bishop sprinkled the aisles and walls. A pontifical mass was then begun by the Bishop. Archibishop Githous, of Baitmore, preached the sermon, praising the congregation for the magnificent temple which had been built by voluntary contributions. A feature of the service was the music, under the direction of Adolph Neucadoff, of the Philharmonic Society, New-York, Mozart's Twelfth Mass was sung by a quartet selected from New-York, assisted by a chorus of sixteen voices and an orchestra of twenty-five pleces. In the evening vespers and the benediction were given. The new church is a brick edifice 200 feet in depth and 115 feet in width. Three years ago last Summer the corner-stone was laid and the work has continued ever since. The interior of the building is said to be one of the finest in the diocese of Newark. There are two side chapels and an oratory, baptistry and sacristy. Twelve massive pillars support the ceiting. In the body of the church are twelve staluct-glass windows, presented by members of the congregation. The sanctuary is lighted by five windows bearing representations from the life of the Virgin. Pews are arranged so as to form five spacious aisles. They are of walnut and are sufficient in number to seat 5,000 people. The main altar is an attractive feature of the interior. It was constructed at the coat of \$5,000, and is of French walnut. A large niche surmounts the tabernacle, which will be used as a repository for the sacrament during benediction services. A life-size fluore of the Virgin is placed high on the altar. A spire, yet unfinished, will be raised on one side of the church to the height of 210 feet. The cost of the whole structure is \$150,000. Newark, and Bishop Corrigan, of Newark, who performed

PERTURE OF THE RADROAD CONFERENCE. FURTHER WORK NECESSARY BEFORE AN EAST-ROUND POOL IS MADE-INCREASE OF RATES.

The conference of railroad managers was concluded on Saturday after a brief session. No definite plan of pooling East-bound freight was adopted, all the information necessary justly to apportion the percent-ages among the members of the pool not having ages among the memoers of the pool not having been furnished by them as requested in the circular of Commissioner Fink. While the managers generally cialmed to be confident of the final adjustment of existing differences as to the distribution of the business and of the success of the pool when once established, it was admitted that an apportionment of the traffic that should be satisfactory to all was a matter of great difficulty, and that large concessions would have to be made by some of the reads.

admitted that an apportionment of the traine that should be satisfactory to all was a matter of great difficulty, and that large concessions would have to be made by some of the roads.

A resolution was adopted on Saturday providing for the appointment of a committee to arrange the general East-hound business and to assist in fixing the percentages to be adopted by the pool. The determination of the business done by the pooling roads and of the division of the common earnings was left in effect with Commissioner Fink to whom the roads will report the actual Eastern business done by them. This will form the basis of the apportionment of the common earnings, and will be considered at a future conference, the time of which was not fixed. The arrangements for pooling the traffic at Chicago and Cincinnati were not completed, the Chicago roads not being able to agree as to the division of the business, and some of the Chicago in Mr. Guilford, Western commissioner under the former pool, was selected to assist in collecting the statistics by which to fix the division of the business. A meeting of the Western roads will be held soon.

A general advance on East-bound freight, based on an advance of 5 cents on fourth-class freight from Chicago, was decided on by the conference, on the surgestion of the Chicago roads. The new schedule will take effect on November 25.

TRYING TO KILL HIS MOTHER.

AN IDLE WRETCH STEALS HIS MOTHER'S MONEY AND

THEN ATTEMPTS TO SHOOT HER. Mrs. Catherine Thornton, a poor widow, lives in the rear of No. 304 Mott-st. Aged and unable to labor, she is supported by her eldest son, who works as a night clerk downtown. A second son, named Peter, lives with her. He is an idle scapegrace, well known to the police, and it is said, almost an idiot. On Saturday night the widow discovered that her little savings, laid away to buy coal and food for the Winter, had been stolen from an old trunk. Peter confessed that he had stolen the money, a few dollars in all, and was compelled to give back the greater portion. That nicht his mother, and an old woman who lives with her, found haif a pound of powder and a hanoful of the largest quek-shot concealed under Peter's pillow. Terrified at their discovery, they sat up all night, afraid to go to bed, until the eldest son returned from work. At 8 o'clock yesterday Peter arose, and sending the only person who was in the room with his mother for a usif of water, went to her bed-side and demanded the money he had surrendered the night before. She refused, and without a word the son pulled out a pistol and fired it, planting the muzzle almost on her forchend. The neighbors who ran to the room on hearing the shot and the old woman's cries, saw him, pale and excited, rush from the house into Noti-st. The wound inflicted was found by the Believue Hospital surgeons to be supply a larcer atted flesh wound, and not dangerous. Office McGowan succeeded last night in arresting the would-he murderer. He was locked up in the McGeer Street Station. the police, and it is said, almost an idiot. On Saturday

ASSETS OF TWO JERSEY CITY COMPANIES. The action of the Mechanics' and Laborers' Savings Bank in Jersey City, in enforcing the ninety days law has been approved by Chaucellor Runyon. estimated that it will take from \$30,000 to \$40,000 to do this. It is rumored in Jersey City that John Haillard, the president of the bank, is indebted to it to the amount of \$85,000. Mr. Haillard denied the rumor yearerday, and said the officers would give a statement to the public as soon as it could be prepared.

Mr. Haillard is also president of the State Fire Insurance Company, of Jersey City, and fears were felt that that company was also insolvent. The secretary, James D. Reid, and yeaterday that the company was perfectly sound. It had a capital of \$104,000, upon which a dividend of 10 per cent was paid annually, and its samplus was more than \$60,000. Mr. Haillard has loaned \$17,000 of the company's funds to the bank, but there seems to be no doubt that the Insurance Company is solvent. Anderew Clerk, a director, and one of the wealthy men of the city, says that he has examined the books and found the concern in a good condition. Its assets are valued at \$165,000. Mr. Haillard claims that the loans made to the bank are fully secured. A meeting of the directors of the insurance company will be held tomorrow, when a full statement will be made.

The following appeal in behalf of the Colpred Orphans' Home of Louisiana has been issued:
The attention of the public has been much occupied, and justly, with the sufferings brought on our friends in the South by the yellow fever. St. Vinceut's Infans Asylum and the St. Mary's Orphan Asylum, in New-Orieans, have suffered much, and have received liberal relief. We have thought it right to call your attention to the needs of the Orphans' Home of Louisiana—for colored orphans—located at the village of La-Teche, La. This is the only Protestant Orphans' Home in the far South for colored orphans at is embarrassed by debt. We have been compelled to flud homes among the people for usariy a hundred orphans. We are constrained by humanity and the love of Christ, to restore our orphans as quickly as possible. The increased number of colored

orphans, due to the ravages of the dreadful pestilence, makes it-our urgent duty quickly to remove our debt and renew the activity of the institution. We orgently and affectionately appeal to the Christian public to help. Please forward contributions addressed to Orphans' Home of Louislans, care of Messra, Nelson & Phillips, No. 805 Broadway, New-York.

This is signed by General Cyrus Bussey, president Chamber of Commerce, New-Orleans, La.; the Rev. J. P. Newman, D. D., Pastor Central M. E. Church, New-York; A. V. Stout, president National Shoe and Leather Bank, and Chauncey Shaffer.
